ÅKERSTRÖMS

Flexible & reliable
door/gate opening

→ Robust radio remote control for industrial applications

Sesam 800 has various usage areas like remote control of doors, gates, barriers, fans, floodlights, and more. It is robust, flexible, straightforward, and uses modern digital technology

- Encrypted authentication for increased security
- Waterproof design on transmitter (IP67)
- Open up to 999 doors
- Very fast function response time
- Group ID increases the flexibility and simplifies the maintenance on large installations (L99)
- Highly durable long-life push buttons, over 1,000,000 cycles momentary
- Shock-resistand and user friendly

- Pin code for display receiver
- Range limitation for extra safety
- Duplex (two-way radio) which enables a relay feedback indicator on the transmitter
