

Quality Policy for Allgon AB and subsidiaries in multisite certificate

We are continually listening to our customers and employees and based on their comments we will develop, manufacture and market safe and reliable solutions for wireless equipment controls and communications.

We aim to make our quality work successfully through:

- Meeting agreed demands and expectations
- Everyone actively finding out the demands made on the results of their work
- Our work and our objectives involving the continuous improvement of products and processes
- Complying with applicable regulatory requirements and laws
